journal of
neurosurgical sciences

THE OFFICIAL JOURNAL OF THE ITALIAN SOCIETY OF NEUROSURGERY

INDEX

Vol. 19 - 1975

EDIZIONI MINERVA MEDICA TORINO

SUBJECT INDEX

Abscesses, cerebral

Considerations on the results of surgical treatment of cerebral abscesses . . . 152

Anastomoses, arterial

Small arterial anastomoses: experimental models applicable to microneurosurgical practice 40

Aneurysm, carotido ophthalmic

On the radical treatment of a large carotid-ophthalmic aneurysm. Case report 176

Aneurysms, cerebral

Medical treatment of subarachnoid hemorrhage due to cerebral aneurysm in old patients 70

Aneurysms, intracranial

Evaluation of indications for direct surgical management in SAH due to ruptured intracranial aneurysms. Immediate and long-term results in a cooperative study of 678 cases 47
Long-term results of non-operative management of ruptured intracranial aneurysms 54
Preoperative management of patients with aneurysmal subarachnoid hemorrhage 59
Experiences in management of ruptured aneurysms 65
Long-term prognosis in a group of patients with ruptured unoperated intracranial arterial aneurysms 69
Cerebral transit time by intravenous isotopic technique in S.A.H. 75
Antifibrinolytic therapy in the treatment of subarachnoid haemorrhage caused by arterial aneurysms 77
Antifibrinolytics in the treatment of subarachnoid hemorrhages due to ruptured aneurysms 79
Ruptured intracranial aneurysms as the cause of acute cerebral vascular accidents 81

Angiography, cerebral

Angiographic evaluation of the operability of some posterior fossa malformations in infancy 181

Antifibrinolytic drugs

Antifibrinolytic therapy in the treatment of subarachnoid haemorrhage caused by arterial aneurysms 77
Antifibrinolytics in the treatment of subarachnoid hemorrhages due to ruptured aneurysms 79

Arteriography

Angiographic study of a jugular glome tumor with cervical extension 166

Arteriosclerosis

Arteriosclerosis of the brain vessels as an indication to vascular surgery 23

Artery, internal carotid

Kinking and coiling of the internal carotid artery: clinical-statistical observations and surgical perspectives 15

Artery, internal carotid insufficiency, ophthalmic

The Doppler ophthalmic test. Report of a study on tis value in diagnosis of internal carotid artery insufficiency . . 129

BCNU

The use of BCNU in chemotherapy of tumors of the central nervous system 223

Bleomycine-Co^{57}

Indications for the use of bleomycine-Co^{57} in brain scanning 257

Blood flow, cerebral

Cerebral transit time by intravenous isotopic technique in S.A.H. 75

Brain scanning

Relationship between Monro's foramen and cranial breadth. A method for a more accurate echo-encephalographic examination 159
Indications for the use of bleomycine-Co^{57} in brain scanning 257

Brain scanning, hemispheric

Hemispheric brain scan contribution to ischemic cerebral disorders 29

Brain vessels

Arteriosclerosis of the brain vessels as an indication to vascular surgery 23

Carotid ligation

On the radical treatment of a large carotid-ophthalmic aneurysm 176

Cerebrovascular accidents

Ruptured intracranial aneurysms as the cause of acute cerebral vascular accidents 81

Cervical spine, trauma

Tetraplegia from trauma of the cervical spine in the absence of fractures and luxations 171

Coma

Severe traumatic coma in infancy and childhood. Results after surgery and resuscitation 120

Coma, classification

A proposal for the clinical classification of acute coma due to organic cerebral lesions 113

Coma, traumatic

Incidence and significance of clinical signs of brainstem traumatic lesions. Study of 2600 head injured patients 215

CSF alterations

Correlations between CSF alterations and the number of reoperations in ventriculo-peritoneal shunts 234

CSF fistula

Repair of traumatic cerebrospinal fluid leaks using tissue adhesives 163

Cysts, arachnoid, Dandy Walker

Angiographic evaluation of the operability of some posterior fossa malformations in infancy 181

Doppler effect

The Doppler ophthalmic test. Report of a study on its value in diagnosis of internal carotid artery insufficiency . . 129

Electrodurography-Electroencephalography

Electrodurography: indications and diagnostic value 107

Encephaloceles

Angiographic evaluation of the operability of some posterior fossa malformations in infancy 181

Epidemiology

Incidence and significance of clinical signs of brainstem traumatic lesions. Study of 2600 head injured patients 215

Epilepsy

Electrodurography: indications and diagnostic value 107
Physiopathology of epileptic seizures . . 110

Epilepsy, surgery

Surgical treatment of partial epilepsy: remarks on the relative role of stereo-EEG and other diagnostic examinations 89
Surgery of epilepsy: some indications for SEEG 95

5-HIAA

5-Hydroxyindoleacetic acid (5-HIAA) in lumbar CSF of patients with subarachnoid hemorrhage 72

Head injury

Severe traumatic coma in infancy and childhood. Results after surgery and resuscitation 120
Repair of traumatic cerebrospinal fluid leaks using tissue adhesives 163
Incidence and significance of clinical signs of brainstem traumatic lesions. Study of 2600 head injured patients 215

Hemorrhage, subarachnoid

Preoperative management of patients with aneurysmal subarachnoid hemorrhage 59
Medical treatment of subarachnoid hemorrhage due to cerebral aneurysm in old patients 70
5-HIAA in lumbar CSF of patients with subarachnoid hemorrhage 72
Cerebral transit time by intravenous isotopic technique in S.A.H. 75
Antifibrinolytic therapy in the treatment subarachnoid haemorrhage caused by arterial aneurysms 77
Antifibrinolytics in the treatment of subarachnoid hemorrhages due to ruptured aneurysms 79

Hydrocephalus

Unusual late complication of ventriculo-atrial shunts. Case report 185

Intrathecal radioisotopes and phlebography in investigation of ventriculo-atrial shunts in children 248

Hydrocephalus, non-tumoral

Intracranial pressure in adult non-tumoral hydrocephalus 226

Hypertension, intracranial

5-HIAA in lumbar CSF of patients with subarachnoid hemorrhage 72

Ischemia, cerebral

Microneurovascular surgery for cerebral ischemia 6

Ischemic cerebral disorders

Hemispheric brain scan contribution to ischemic cerebral disorders 29

Lesions, brain stem

Incidence and significance of clinical signs of brainstem traumatic lesions. Study of 2600 head injured patients 215

Lesions, vascular

Brain stem vascular lesions affecting alertness and responsiveness 211

Meningoceles

Angiographic evaluation of the operability of some posterior fossa malformations in infancy 181

Metastases, brain

Contribution to the study of 150 cases of cerebral metastases 189

Microneurosurgery

Microneurovascular surgery for cerebral ischemia 6
Small arterial anastomoses: experimental models applicable to microneurosurgical practice 40

Monro's foramen

Relationship between Monro's foramen and cranial breadth 159

Nervous system

The use of BCNU in chemotherapy of tumors of the central nervous system . 223

Nervous tissue reactions

Contribution to the study of 150 cases of cerebral metastases 189

Occlusive disease

Surgical treatment of occlusive disease of the supra-aortic branches 35

Otorrhea

Repair of traumatic cerebrospinal fluid leaks using tissue adhesives 163

Phlebography, superior vena cava

Intrathecal radioisotopes and phlebography in investigation of ventriculo-atrial shunts in children 248

Pressure, intracranial

Intracranial pressure in adult non-tumoral hydrocephalus 226

Radioisotope investigations

Intrathecal radioisotopes and phlebography in investigation of ventriculo-atrial shunts in children 248

Rhinorrhea

Repair of traumatic cerebrospinal fluid leaks using tissue adhesives 163

Shunt, ventriculo-atrial

Unusual late complication of ventricular-atrial shunts 185
Intrathecal radioisotopes and phlebography in investigation of ventriculo-atrial shunts in children 248

Shunt, ventriculo-peritoneal

Correlations between CSF alterations and the number of reoperations in ventriculo-peritoneal shunts 234

Shunting procedure

Intracranial pressure in adult non-tumoral hydrocephalus 226

Stereo-EEG

Surgical treatment of partial epilepsy: remarks on the relative role of stereo-EEG and other diagnostic examinations 89
Surgery of epilepsy: some indications for SEEG 95

Syndrome, apallic

Severe traumatic coma in infancy and childhood. Results after surgery and resuscitation 120

Tetraplegia

Tetraplegia from trauma of the cervical spine in the absence of fractures and luxations 171

Tissue adhesives

Repair of traumatic cerebrospinal fluid leaks using tissue adhesives 163

Transit time, cerebral

Cerebral transit time by intravenous isotopic technique in S.A.H. 75

Tumors, cranial-epidermoid-orbital

Cranial and orbital epidermoid tumors . . 139

Tumor, jugular glome

Angiographic study of a jugular glome with cervical extension 166

Vascular surgery

Arteriosclerosis of the brain vessels as an indication to vascular surgery . . . 23

Ventriculography by contrast

Remarks concerning 102 watersoluble contrast ventriculographies 238
